The Sustainable Development Goals Game IV

The Solutions game

Welcome to Quizzability's The Sustainable Development Goals Game IV!

- This game is a basic approach to the SDGs, where students get to learn about each SDG. It is meant to be played in class, where students will have the opportunity to engage with the United Nations' Sustainable Development goals.
- If it is the first-time students are dealing with the SDGs, you can use the SDG cards as clues for the game.
- There are two possible ways to play the game:

Rules

Game type #1 rules:

1. Divide the class into teams of 2-4 players.
2. Each team takes turns answering the questions.
3. If a team answers a question correctly, they get a point (or the corresponding SDG card. See below).
4. The team with the most points at the end of the game wins.
5. To make the game more challenging, you can add a timer and give teams a certain amount of time to answer each question.

Rules

Game type #2 rules:

1. Divide the class into teams of 2-4 players.
2. Read all the questions out loud.
3. Allow a certain amount of time for the groups to write down their answers.
4. After all questions have been read, the teacher reveals the correct answers.
5. When a team answers a question correctly, they get a point (or the corresponding SDG card. See below).
6. Tally up each group's score.
7. The group with the most correct answers wins.

The Cards

SDG cards: to make the games more appealing, print the cards you find at Quizzability's webpage. They are free to use and should be used as many times as possible. Have fun in class! 😊

Quizzability supports the Sustainable Development Goals

What are some ways we can reduce poverty?

- A. Providing education and job opportunities
- B. Reducing taxes on luxury items
- C. Building more shopping malls

1 NO POVERTY

How can we ensure everyone has access to healthy food?

- A. Increasing the price of healthy food
- B. Building community gardens and farms
- C. Encouraging people to eat more fast food

2 ZERO HUNGER

What are some ways we can stay healthy?

- A. Eating a balanced diet and exercising regularly
- B. Smoking and drinking alcohol
- C. Eating junk food and playing video games all day

3 GOOD HEALTH AND WELL-BEING

How can we make education accessible to everyone?

- A. Making education difficult to access and not providing resources
- B. Making education expensive and only for the wealthy
- C. Providing free education and school supplies

4 QUALITY EDUCATION

How can we promote gender equality?

- A. Treating one gender better than the other
- B. Treating people equally regardless of their gender
- C. Treating people differently based on their gender

5

GENDER EQUALITY

How can everyone have access to clean water and sanitation?

- A. Charging people for access to clean water, because it has a cost
- B. Polluting the water and not providing any sanitation facilities
- C. Make sure companies keep water streams clean and the government develops proper sewage systems

6

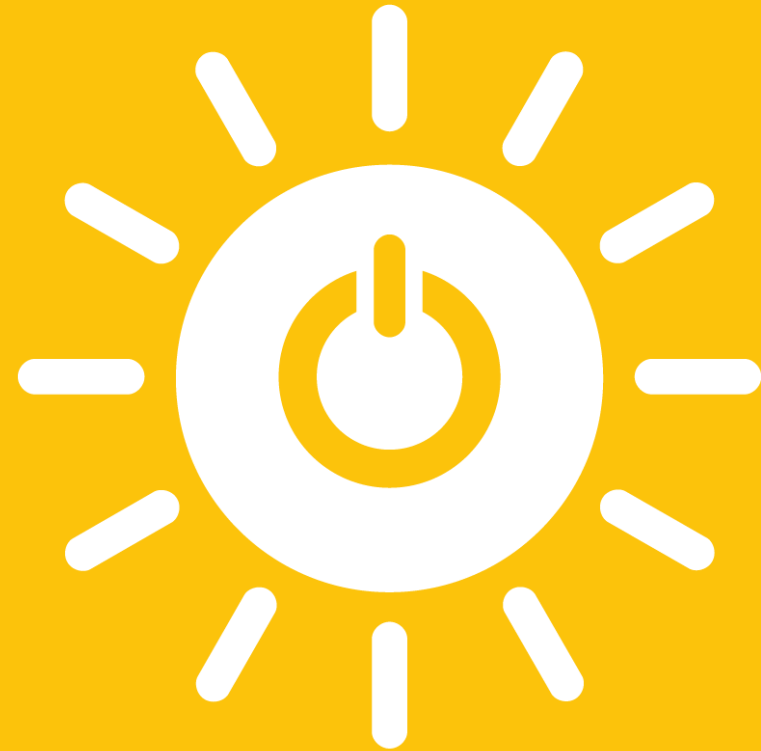

CLEAN WATER AND SANITATION

How can we reduce the use of fossil fuels?

- A. Cutting down forests for energy
- B. Use more coal, oil, and gas
- C. Develop better solar, wind, and hydro power solutions

7 AFFORDABLE AND CLEAN ENERGY

How can we promote economic growth for everyone?

A Outsourcing jobs to other countries and not providing job training programs

B. Making it harder to start a business and increasing taxes

C. . Creating job training programs and supporting small businesses

8

DECENT WORK AND ECONOMIC GROWTH

How to encourage innovation for sustainability?

- A. Supporting research and development of new technologies to be used in roads, hospitals, schools, and housing
- B. Maintaining old technologies that allow fast and cheap construction
- C. Not investing in infrastructure and not supporting innovation, because such things develop naturally

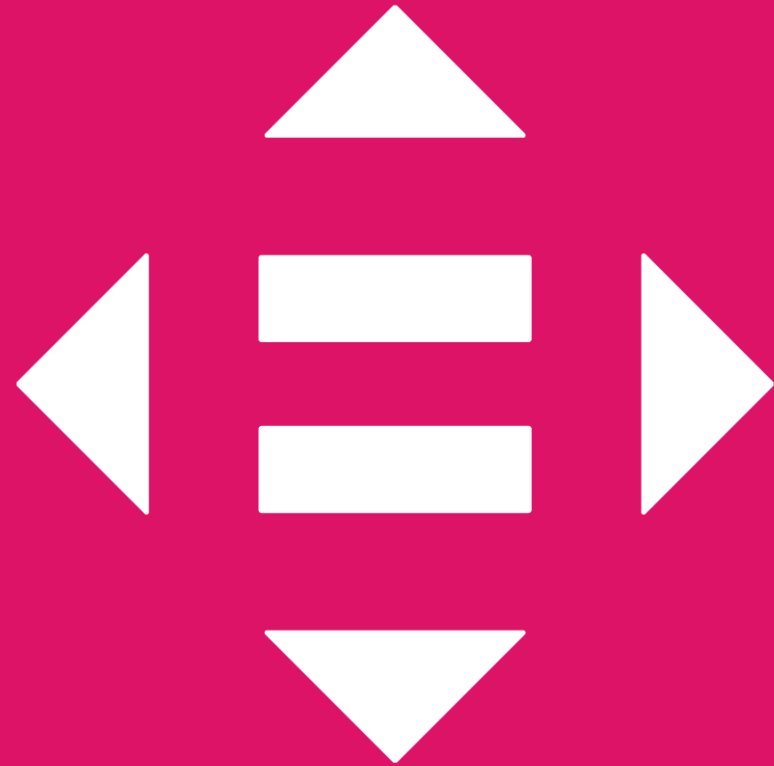

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

How can we promote social justice?

- A. Discriminating against certain groups of people, because they are less smart than us
- B. Providing equal opportunities for everyone regardless of their background
- C. Providing unequal opportunities for different groups of people, because that's how it should be

10 REDUCED INEQUALITIES

How can we build and maintain sustainable cities?

- A. Building green spaces and using sustainable materials in construction
- B. Building more houses and shopping centres closer to each other
- C. Not investing in infrastructure and not providing resources

11 SUSTAINABLE CITIES AND COMMUNITIES

What are some ways we can use resources more responsibly?

- A. Ignoring waste and not thinking about the environment
- B. Creating more waste and using resources irresponsibly
- C. Recycling, reducing, and reusing materials

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Why is it important to act on climate change?

- A. It is not that important, because the climate always changes
- B. It is a bit important, because the summers are longer and we can stay outdoors for longer periods
- C. It is very important, because climate change affects our way of life in many ways

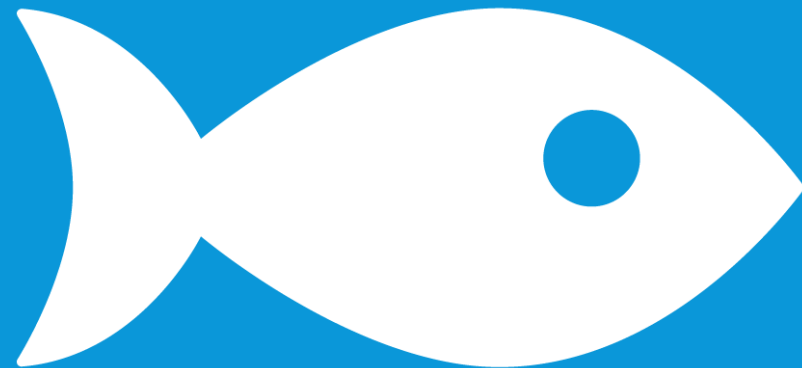

13 CLIMATE ACTION

How can we protect marine life from plastic pollution?

- A. Using plastic bags for shopping, because these bags are stronger than other solutions
- B. Significantly reduce the usage of plastics at home, and demand plastic free products
- C. Using plastic containers to put all our food and keep it in the fridge

14 LIFE
BELOW WATER

What is one way we can help protect wildlife habitats?

- A. Using more paper products, build taller skyscrapers, live in the city
- B. Keep all nice animals alive, but remove the bad ones to have a better nature
- C. Planting more trees and creating green spaces, reduce meat consumption, protect all forms of life

15 LIFE ON LAND

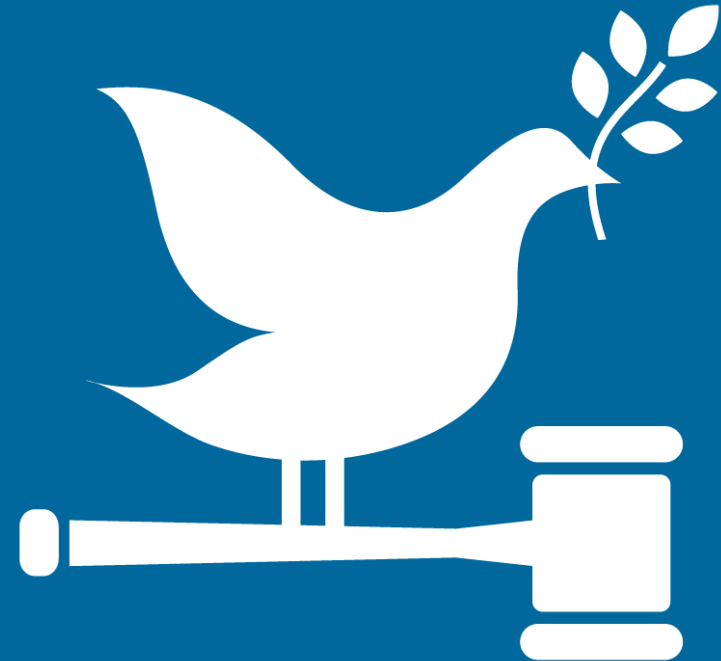

How can we promote peace and justice?

- A. Resolving conflicts peacefully through communication and understanding
- B. Fighting and arguing with others to get our points across
- C. Ignoring conflicts and hoping they will go away because it's not our business

16

PEACE, JUSTICE AND STRONG INSTITUTIONS

How can we can work together to achieve the SDGs?

- A. Only working with people who look like us and come from similar backgrounds
- B. Collaborating with people from diverse backgrounds and with different skills and perspectives
- C. Competing with others and trying to be the best without helping others.

17

PARTNERSHIPS FOR THE GOALS

Answers:

1. A 9. A 17. B

2. B 10. B

3. A 11. A

4. C 12. C

5. B 13. C

6. C 14. B

7. C 15. C

8. C 16. A
